

# Hello, My name is Keane.

I solve layout problems and provide freelance design support in Wellington. My speciality is making things look good on a page, in print or on the screen – in other words, Layout Design.

I have worked in the graphic design field since there were computers, instead of waxers and typesetting (I can use those too), as mac operator, creative support and designer. In the last 6 years, I have been freelancing around Wellington, before then I was in an advertising agency for 7 years. I am also a bit of a techie around computers and cameras.

Cheers  
Keane
